

K.G.3 Identifies and explains 2D and 3D shapes

When shown a shape, student will correctly identify as a 2D or 3D shape. Students will be able to explain the difference between a 3D and 2D shape:

1. Show me a square, is it 2D or 3D, why?
(2D because it's flat)
2. Show me a sphere, is it 2D or 3 D, why?
(3D because it's solid)
3. Show me a circle, is it 2D or 3D, why?
(2D because it's flat)
4. Show me a cube, is it 2D or 3 D, why?
(3D because it's solid)
5. Show me a cone, is it 2D or 3 D, why?
(3D because it's solid)
